

Glow Girl™ Birchleaf Spirea

Spiraea betulifolia 'Tor Gold'

Description

Pink buds with hints of red in them open to pure white blooms in spring - right when shoppers are in the garden center. The lemon-lime foliage holds its color well through the summer without burning, and takes on brilliant oranges in fall. The full, compact habit is very attractive in a container. A great plant for retailers and landscapers who need easy, adaptable color for colder climates.
